

## QUICK CHANGE CRIMP DIES

We found an excellent manufacturer of 'Quick Change' crimp tools in Taiwan and thought it was a great idea and the quality of the tools were excellent.

The crimp dies can be inserted into the crimp handle easily without any tools - the advantage of this concept is that you only require one crimp handle and any number of crimp dies that can be changed quickly and easily in the field. They also offer a sturdy carrying case for the crimp handle and up to five die sets.

### COAX HEX CRIMP DIE

RG 174, 179, Belden 8218 Fiber Optic
